

Judge's Comments May Contest "People"

Judge 1

- 1- Not so much of a "people" picture as it is of the wall
- 2- Marvelous capture of the artist's hand and what he was working on. Nicely cropped.
- 3- Cute snapshot. Image appears crooked. Too tightly cropped.
- 4- Cute action shot of ladies going thru what is probably cold water. Great expression. Brightening the subjects would help here.
- 5- Person is not in focus and what's in focus is not interesting. DO NOT DATE STAMP IMAGES
- 6- Wonderful capture of musician. Play with color balance to get is a bit more natural.
- 7- Nice expression the girl's face. Adequate room for the pair to move from left to right.
- 8- Travel snapshot. Might have liked to have seen more of what's on the table.
- 9- Artist working. Image needs significant targeted brightening. Upper RHS is too bright.
- 10- Perfectly timed capture. I'd prefer to see the cowgirl's face.
- 11- Cute colors, textures, and patterns. Better suited for one of those topics instead of "people."
- 12- Tender moment captured. Everything that should be is in focus.
- 13- Great portrait. Child is tack sharp; background is soft, and foreground is just enough out of focus to emphasize the child. Well done.
- 14- fun capture of photographers photographing something unknown.
- 15- Black & white treatment is appropriate. More light on the face would help. Face is not as sharp as guitar. What is the subject?
- 16- Lovely casual portrait. Subject is well lit.
- 17- Colors and subject's expression make this image. Definition of the dress and dancer are spot on.
- 18- Well lit casual portrait. Only front two people are in focus.
- 19- Cute "peak-a-boo" snapshot. A touch more contrast could help here.
- 20- Subjects are nicely in focus with enough softness to focus attention on them. Vignetting is too harsh.
- 21- Someone's else's art.
- 22- Lots of activity around the water feature. Subjects are all soft.
- 23- Cute capture. Overall image seems overly warm.
- 24- Funny picture and mask. Straighten the image.
- 25- Good idea of capturing reflections. Bottom portion of image is blown out.
- 26- Cute environmental capture of mother and daughters. Nothing is sharp in the image.
- 27- Moving tribute to lost family members.
